GREETED IN OHIO

WOUND UP STATE TRIP WITH SPEECH AT TOLEDO.

Made More Than a Dozen Speeches From Platform of Train to Crowds at Towns Where His Train Stop-

Toledo, March 8 .- After a day spent for the most part on the rear platform of his private car, President Taft concluded his brief "campaign" through eastern and northern Ohio here to night with a speech in the Collseum. Ou the way from Pittsburg to Toledo, the president made more than a dozen speeches from his private car to crowds at towns at which his train stopped. The president's friends aboard the train professed to night to be more than satisfied with the greetings. President Taft spoke on all sorts of subjects, prosperity and peace, the tariff and business, farming and conservation. None of his talks were long. Twice he referred to the refusal of the senate yesterday to ratify as they were framed the arbitration treaties with Great Britain and the fight for the pacts.

in the fight. The president was in good humor in spite of defeat of the treatles and the crowds were apparently in good humor, too. At Canton somebody raised a laugh that brought an anface by yelling after Mr. Taft was through speaking: 'Don't let the 'ion tamer get

The president reached Toledo late this afternoon, driving from the station to the Commerce club over muddy streets between sidewalks filled with people. His reception was not cordial as at other Ohio towns, but there was enough cheering to make Secretary Hilles and Ohio politicians who had traveled with him through the state to say they were well pleased.

Leaving Toledo late to night the president is due in Chicago early to morrow for a two days' stay. Program in Chicago.

Chicago, March 8 .- President Taf will be a busy man during his visit here to morrow and Sunday.

The president's program for Sat urday includes a political conference an address to the students of Armour institute, a short speech at the Clay Products exposition at the Coliseum, noon recention by the Taft club of Illinois, a reception at the Union League club, a non-political address at an opera house mass meeting, a brief talk at the Press club, an ad-Swedish-American league at a reception and memorial

Sunday he will attend religious services in the morning and make two addresses, one to Polish children and another to the Bohemian society in the afternoon.

The special train carrying the president will arrive here at 7:40 o'clock Saturday morning and will leave at 5:30 o'clock Sunday even-

Special care will be taken guard the president while here. The secret service squad which travels with him will be augmented by six city detectives. Guards will be placed on every elevated road under which his automobile passes

PROTEST FROM LEVEE AND DRAINAGE ASSOCIATION.

Adopt Resolution Asking Secretary of War to Refuse Permission of Chicago Sanitary District-Will Result in Flooding Much Land.

Springfield, Ill., March 8 .- Protesting against the admission of more water from Lake Michigan to the Illinois river, the board of directors of the Association of Drainage and Levec Districts of Hillinois in session here today adopted a resolution asking the secretary of war to refuse permission to the Chicago Sanitary district to increase the volume of water in its drainage canal until state and government dams

have been removed from the river. The sanitary district has asked Secretary Stimson for permission to increase the flow from 4,200 to 10,

000 cubic feet a second. This move is declared by the officials of the sanitary district to be necessary to properly safeguard the health of Chicagoans.

It is objected to by the state drainage body on the ground that to raise France, making it plain that while the river level will mean the flood-be had been disappointed at the fing of almost 400,000 acres of land, senate's action he had not given up much of which has been reclaimed at vast expense. Fillibuster in House Caused Search tain more or less order respectively for Absentees in Oorder to Make a Quorum.

Washington, March 8 .-- As a result of a filibuster on the private pension bill in the house the sergeant at arms and his assistants searched the capital to night to arrest members absent from scats without leave. The filibuster was conducted by Representatives Roddenberry and Tribble, Democrats Many theater parties and several dinners were invaded and members attending were hurried to the house under arrest. The house was 68 members short of a

quorum. Representatives Roddenberry and Tribble, Democrats, of Georgia, were the conductors of the filibuster. They contended that many items in the onhibus measure were unfair and announced they would oppose their passage, "even if it took all night." Leaders of the majority, including

Mr. Underwood, appealed to them in vain to abandon their opposition Every parliamentary method of delay and obstruction was employed until the reading of the bill was completed. Mr. Roddenberry then endeavored to have it referred to the committee without avail and the measure was advanced to the final stage of passage, when the Georgia member submitted that a quorum

was not present. "The steam roller" was brough out at this juncture and Representative Dickson of Indiana, Democrat, who occupied the chair, dld not hesitate. Waving his gave! swiftly over the few members present, he sata: "The chair sees 115 members

present. There is a quorum." Mr. Roddenberry processed vainly. When the bill passed into the open house for passage Mr. Roddenberry renewed his tactics, finally compelling the issue of orders to the sergeant at arms to bring in the absentees.

Preceding the passage of the bill. Republicans and Democrats serenaded the Georgia obstructionists amid laughter with "Marching Through Georgia."

ANOTHER "CHALLENGE" ISSUED BY ROOSEVELT MANAGER.

Characterizes Director McKinley's Last Letter as "Flat Refusal" to Ald in Getting Presidential Preference Primaries.

Washington, March 8 .- Senator loseph M. Dixon issued another "challenge" from the Roosevelt National headquarters to night to Director McKinley of the national Taft bureau upon the subject of presidential primaries. Replying to Mr. McKinley's letter of last night. Senator Dixon characterizes it as a "flat refusal" to aid in getting presidential preference primaries, and he makes a new demand upon the Taft managers.

Director McKinley in his reply to Chairman Dixon last night said he was in absolute accord with the selection of the delegates to the National convention by the primary system, wherever primaries are or may be legally provided, fairly conducted and surrounded by the restriction of the law.

In the course of his letter, Mr. Dixon says he is "forced to the conclusion that in refusing to join with me in an effort to secure an expression by Republican voters as to the candidate they want, you are an-nouncing a decision of your chief and that Mr. Taft refuses to trust the voters to determine the question of his candidacy, and he is willing to become the candidate of his party even against the wishes of the majority of his party."

Senator Dixon expresses regret that Mr. McKinley referred to "changes in the rules while the game is in progress," and regrets that McKinley regards "the selection of a Republican candidate president as a 'game'." and adds.

"But, if you insist on designating it a 'game', my desire is to eliminate marked cards and loaded dice. Mr. Roosevelt and his supporters will not tolerate the tricks and deceptions and fraud which are inseparable from the kind of politics your characterization implies.

Col. Roosevelt's manager says in his letter that through political manipulation, particularly in the south, there has been an absolute stifling of expression on the part of

Republican voters."

He asks Mr. McKinley it he will join him in an appeal to Republican committees to provide for un expression of Republican voters on the choice of the Republican presidential candidate, also if he will join in a telegram urging Republican members of the legislatures of Massachusetts, Maryland and Michigan, now in session, urging them to support presidential preference bills.

Governor Makes Request. Lincoln, Neb., March 8.—Governor Aldrich this evening sent a message to Representative McKinley, urging him as director of the campaign of President Taft, to arrange for presidential preferential primary in each state of the union, concluding:

"The party machine may run the steam roller over the rights of the rank and file in the national convention, but they cannot beat it at the polls in November."

PLAN EXCURSIONS TO JACKSONVILLE

Business Men's Association Wants People From Surrounding Towns to Visit City Schools-J. H. Rayhill, Jr., Chosen Secretary.

surrounding cities and towns in the educational institutions of Jacksonville was presented at a meeting of the Business Men's association Friday, when it was proposed to correspond with the principals and superintendents of the various High schools in cities within a radius of 100 miles, asking them to bring the students from their schools in a body to this city and spend one day in visiting the various schools and olleges and in studying their equipment. The members of the governing committee, who proposed the plan, argue that since Jacksonville is laving more colleges and institutions han any city of its size in the state, has something here to induce an educational excursion and that all who came on a pilgrimage of this sort, would be more than compensated by the instruction and information of educational value to be derived from a study of the modern quipment of the local institutions. There are more than one hundred ligh schools within a radius of 100 miles and in each of these schools

re boys and girls, who are looking forward to higher education, and whose desires would be greatly strengthened by a visit to the colleges here. The business men, who advanced this plan, realize that the schools and colleges are among the city's principal assets and they want o aid in an increase of attendance The State School for the Blind, the School for the Deaf, Illinois Woman-s college, Illinois college, Jack-sonville Business college, Routt college and the High school, with their splendid facilities for education and the methods used would furnish study and entertainment for a most profitable day. The aim would not be to prepare special programs for the entertainment of the visitors, but to simply allow them to see the schools in their daily routine of work. Furthermore, no special day would be set for the excursions, but the visitors would be free to come whenever convenient. The trains run so that the excursion idea can be well carried out.

The plan has been presented to the heads of the different educational the heads of the different educational county, subject to institutions here and naturally all April 9, 1912. your cold. Why waste time and think well of it. Supt. Furr, Principal Stoops of the High school and Arvert Metcalf of the Woman's college were present at the meeting Friday and commended the committee upon their efforts. The members of the governing committee, with whom the idea originated, are William Newman, John J. Posse J. G. Woodman and Bernard Cause.

There were a few other matter brought before the association Friday. J. H. Rayhill, Jr., has been asked to act as temporary secretary of the association.

QUIT CALOMEL

Thousands Are Turning From This Dangerous Drug. Vegetable Substitute Olive Tablets for the Liver.

Dr. F. M. Edwards, a prominent physician of Portsmouth, Ohio, has discovered a new laxative and liver toner in a combination of vegetable materials, mixed with olive oil, which is in effect almost exactly like the old and untrustworthy calomel; except that there are none of the

bad after effects of calomel. Dr. Edwards has long been a foc of calemel, though he recognized its value along with its dangers. His distrust of the uncertain drug eventually started him years ago to- gan county, subject to the primary, wards experiments with the view of April 9, 1912. discovering a substitute, and he is to day in possession of the long-sought-for combination, which is in the shape of a little sugar-coated,

ABOUT SNOW STORMS. Speaking of hig snow storms Joseph Oridiand says he remembers one Peb. 26, 1950. The snow fell two days and at first the weather turned cold but afterward warmer and made a big freshet. T. H. Rapp says he is certain the snow remembered by C. R. Taylor as of 1874 was in 1876. He says he marked it on the door post and well remembers how he, with a lot of other boys, Morris Goodrick, Will Phillips, Mitt Phillips and lots more of that age, had a great time snowballing. He is certain he can't be mistaken.

Thirty bright students from the Champaign visited the city Friday afternoon and spent five of the busiest hours since they have been on ed in St. Louis. The visit to Jackhe students on account of the state nstitutions here and these schools were also visited in other departments aside from the libraries.

The Alton train was late in arving and Miss Webber arranged for luncheon at the Peacock Inn. Immediately after luncheon they went to the State School for the Blind and were directed to the chapel where the school was assembled for fortyfive minutes. After brief remarks f the blind throughout the state and the school some very practical emonstrations were given to show now the blind children are instructed and how they may reach the same degree of proficiency by diligent tudy as can children who have sight. The American Braille system for teaching the blind was carefully illustrated and the guests showed interest and surprise at the accuracy and the speed attained on the Braille slate, the HaH Braille writer and the Remington typewriter. After seeing the literary work of the kindergarten the grades and high school department, a short program from he music department was given. they were shown work done in the various manual training departments and then a visit was made to the libraries. The guests had a delightful time at the State School for the Deaf. The primary classes and two intermediate classes gave exhibitions of the work done and here the guests marvelled at the wonderful system of teaching the deaf. A visit was also made to the industrial department which was greatly enjoyed and in the domestic science department the students prepared tea and wafers for the visitors. Supt. Gillett and his helpers extended every courtesy to the students and they expressed themselves as highly instructed during their short stay there:

GOOD WOMAN GONE

Mrs. John C. Pyatt Answers Final Summons at Home in This City-Funeral Will be Sunday.

Mrs. John C. Pyatt died at 1:15 o'clock Friday afternoon at her home, 329 West North street. For more than twelve years Mrs. Pyatt had been in delicate health but her recent illness was of short duration. The news of her death will be received ed with universal regret, for perhaps no woman in Jacksonville had more devoted and sincere friends among those who knew her than did Mrs Pyatt. Her kind loving disposition, her devotion to duty, sincerity of action and sweet Christian temperament commanded the respect of all her associates and she leaves an influence that will redoun to the glory of the Master, whom in life she lov-

Mrs. Pyatt was devoted to her home and her family and her loyalty and love was not confined to her husband and the five children of her own blood but was equally shared with the four step-children, who also had a place in the home. TAFT MADE STRONG SPEECH AT TOLEDO

RESIDENT DISCUSSED RECALL OF JUDGES AND JUDICIAL DE-

With Clear Reasoning He Pointed Out Fallicies and Dangers of Proposed Policies-Made No Mentlon

Toledo, March 8 .- President Taft poke here to night upon the recall judges and the recall of judicial ecisions. His remarks could be interpreted as a reply to the recent speech of Col. Theodore Rooseveit, Columbus, at which the colone advocated those policies, although the president did not refer to Colonel Reosevelt or his speech, by word or

Utterly without meri; or utility, nd reactionary instead of progress ive; crude, revolutionary, fitful and unstable were the terms in which he president referred to the recall rathod of reversing judicial con siructions of the constitution.

"I have examined this proposed method of reversing judicial decislons on constitutional questions with care," President Tast said. "I do lot hesitate to say that it lays the ixe at the foot of the tree of well ordered freedom and subjects the guaranties of life, liberty and property without remedy to the fitful impulse of a temporary majority of an

"It was long ago recognized tha direct action of temporary majority existing electors must be lim ed by fundamental law; that is by constitution intended to protect individual and the minority o electorate and the non-voting majority of the people against the unjust or the arbitrary action of majority of the electorate.'

Quoted Froom Webster. President Taft quoted at length rom Daniel Webster's speeches on he necessity of maintaining checks and balances in a constitution secure the guaranty of individua rights and well ordered liberty and hen led up to his discussion of the judiciary.

"It is a complete misunderstanding of our form of government." the president said, "or any kind of government that exalts justice and righteousness, to assume that judges of the issue for their decision."

The judicing he

The judiciary, he said, was are representative in the sense that the executive and the legislators were, whether judges be appointed or elected, because they must enforce

the law as they found it. "In many cases before the judges hat temporary majority is a real party to the controversy to be decided," the president continued. "It may be seeking to deprive an individual or a minority of a right se-cured by the fundamental law. In such a case if the judges were mere representatives or agents of the majority to carry out its will they would lose their judicial character entirely and the so-called administration of justice would be a farce. At this point the president repeated his former declaration that the as it might be made and called attention to his speeches and messages to congress urging reform in proceedure. He spoke of delays and

the costs of litigation.

Denounced Recall of Judges. The president then took up the roposed remedies, first the recall of udges and later the recall of judinot be maintained against the gov-

The majority which sustains one law is no he majority which comes to consider another and the obligation of consistency of popular decision is one which would sit most lightly on each recurring electorate and the opera tion of the system would result in suspension of application of constitutional guaranties according to pop

But the main argument used to sustain such a popular review of judicial decisions that if the people are competent to establish a constitution they are combetent to interpret it and that this recall of decisions is nothing but the exercise of the power of interpreta-

"This is clearly a fallacious argunent. The approval of general principles in a constitution on one hand and the interpretation of a statute and consideration of its probable operation in a particular case and its possible infringement of a general principle on the other hand, are very lifferent things

"Finally, I ask what is the necesdity for such a crude revolutionary, Itful and unstable way of reversing udicial constructions of the constiution. Why if the construction is wrong can it not be righted by constitutional amendment?

"An answer made to this is that the same judges would construe the amendment and defeat the popular assumes dishonesty and a gross vio-lation of their oaths of duty on the part of the judges, a hypothesis uterly untenable.

"I agree that we are making progress and ought to make progress in the shaping of governmental action to secure greater equality of opportunity, to destroy the undue vantage of special privilege and of accumulated capital, and to remove obstructions to the pursuit of human happiness; and in working out these difficult problems we may possibly have, from time to time, to limit or narrow the breadth of constitutional guaranties in respect of property by amendment.'

Senate Confirms Pitney and Then Set Aside Action for Further Consideration.

Washington, March 8 .- The senate to day confirmed President Taft's nomination of Mahlon Pitney, chancellor of the state of New Jersey to succeed the ate Associate Justice Harlan on the supreme bench, and then set aside its action for further consideration because of opposition to Chancellor Pitney which developed in the executive session. The discussion was sufficient friends of Chancellor Pitney and to nake some of them apprehensive hat the nomination might be reected. His sponsors, however, expressed the belief that he would be confirmed very soon.

After the nomination confirmed Senator Bacon suggested that it be held up until Senator Culberson, who has been inquiring luto the decisions made by the chancellor afterward and joined in the debate

Sena or Culberson called attention what is known as the glass bottle blowers' case, that of the George Ionas Glass company against Glass Bottle Blowers' association of the United States. The lively discussion that followed was about that decision. In that case Chancelia Pitney, speaking for the majority of the court, sustained an injunction restraining the bottle blowers from coercing or persuading other work men to break contracts with employ ers or from interfering in any way with persons willing to work or from picketing strikers or enforcing boy-

struck.

The court held that the act relating to persons who combine or encourage others to combine does not legitimatize an invasion of private rights nor prevent the party injured from having full redress. A dissenting opinion by Judge Garrettson éisagreeing with the injunction against workmen who possibly persuade employes not under contract to leave employment was read.

Both Senators Briggs and Martine New Jersey spoke in behalf of Chancellor Pitney. Senator Shivley and other senators said they winted to know more about Chancellor Pitney's decisions. Finally it was agreed to defer action, and the nomination may come up again to mor-

ENTERTAINED S. S. CLASS. Miss Etta McCarty entertained th

members of her Sunday school clas and their mothers at the Centenary M. E. parsonage, Friday afternoon, the hours being from 3 till 5. Mis McCarty teaches the beginners in the Centeary Sunday school, ranging in ages from 2 years to 5 years. The little ones were entertained in a royal manner with music games and toys of an appropriate kind. Refreshments, pleasant to the little ones, as well as the mothers, were served. With the event over, the little ones, with happy faces, bade their teacher good-bye, carrying with them recollections that will always

be pleasant. The following were the names of the children: George Metcalf, Suzanna Joy Rabjohns, Helen Wells, Marion Brown, Frances Boston, Ethel Marie Rexroat, Catherine Decker, Lucile Ledferd, Mary Helen Mc-Carty and Louise McCarty,

WILL WED NEXT WEEK. Cards are out announcing the marriage of Mr. Nellis Crain of this city to Miss Myrtle Seymour of Woodson, the ceremony to take place March 12 at high noon, at the home of the bride's parents, Mr. and Mrs. Morris Seymour, who reside one mile east of Woodson. Mr. Crain is the son of Mr. and Mrs. Dallas Crain of Woodson.

LIBRARY BUILDING

AT WAVERLY. The people of Waverly have met the conditions imposed by Andrew Carnegie and are soon to begin the erection of a \$4,500 library building. It is to be brick and stone and is to stand near the northwest corner of the square ujst north of the brick hotel on a vacant lot there. It will be quite an addition to the second city in the county and the Journal congratulates the people on the good things they will enjoy.

A passion for play is the deepest instluct in a child's nature. young creatures play in their prepa-fration for life. A kitten manifests this joyous activity for several while a child's normal period of play covers the first twenty years of his life. To achieve the proper physical and mental development, much play is essential in childhood and

All social and business relations in ndult life are forms of group activity. The young child knows nothing of group unity and he can adjust himself to but one playfellow at a time. Gradually he enters more and more into complex relations of groups working for a common end. Just as the adult group organizes for mutual gain, group activity in childhood exists for the purpose of promoting play. By "taking turns" each individual is forced to recognize the equal rights of his companions. When the child reaches the point where respect for group unity dominates his conduct, he has learned a very important life les-

The play ground furnishes the greatest freedom to the child. The

government of the home and of the school is essentially monarchial in Both require many tasks without necessarily consulting the wishes of the child. The government of the playground is democratic. The child may play or not just as he oleases. No game is forced upon him. This freedom of choice forters decision and develops initiative. The control of the playground is that of mutual consent. Right ideals of fairness, quickness, alertness and strength prevail. Every game has its rules. The individual is swallowed up in the team and realizes that upon his efforts and success depend the success of others. He learns the meaning of self sacrifice. The honor of the team spurs him on to his best efforts. He learns to play the game and in so doing develops the roots of a social consciousness that both fixes his own responsibility and recognizes the rights and the duties of others. Lessons that social law is real and binding are better taught on the playground than in the class

Experts testify that playgrounds lessen crime. Youthful crime is simply a perversion of the play instinct. The street gamin does not progress beyond his environment and is usually overcome by it. To comhat this tendency, ample facilities for play should be provided in the vicinity of every school The well equipped playground provides a progression of activities that conform to the growing needs of the child. It is better and by far more economical to utilize a boy's energies in a wholesome way than to allow them to drift into vice and crime for the want of proper direction.

R. O. Stoops. Backache Almost Unbearable Is an almost certain result of kidney trouble. D. Toomey, 803 Olive St., Blooimngton, Ill., says: "I suffered with hackache and pains in my kidneys which wer almost unbearable. I gave Foley Kidney Pills a good trial and they done wonderful for me. oTday I can do hard day's work and not feel the effects." J. A. Obermeyer, City drug store.

A WORTHY EXAMPLE.

a day or two ago to a friend. "Give what I feel I should give to my church and do my duty there as I see it, but I am not wholly satisfied with that and each year I want you to come to me and get \$10 to be bestowed on some worthy object as you

see fit."

The cash was handed over and it is safe to say that the generous don-or felt may times repaid by the con-sciousness of doing good. If all men would follow such an example, ac-cording to their ability, what a beautiful place could be made of this world of ours. Not to help the lazy and inefficient, but the worthy ones who need it.

The "Child's Welfare' movement has challenged the attention of thoughtful people everywhere, others are natural supporters and will find in Foley's Honey and Tar Com-pound a most valuable aid. Coughs and colds that are unchecked lead to croup, bronchitis and pneumonia, yield quickly to the healing and soothing qualities of Foley's Honey and Tar Compound. J. A. Obermeyer, City drug store.

Chicago, 111., March 8,-Wheat Wheat dull most of the session, traders generally evening up in anticipation of the government report issued. In spite of the fact that the forecast for world's shipments is moderately bullish the market shows a draggy tone. The farm reserve report showed wheat in farmer's hands to be more than forecasted by most of the private reporters 122,025,000 is bullish as compared with 162,175,000 last year, but its influence is offset by the heavy terminal stocks. Taken as a whole, the report is likely to be a bear influence, at least as far as the May delivery is concerned.

Corn-Throughout most of the session local traders generally expected a bearish report, but were not aggressive sellers. Cash interest reported a slack demand; a like condition was reported at outside points. Owing to railroad troubles, due to the severe winter, movement is still comparatively light, as far as local arrivals are concerned. The government report compared with private estimate is distinctly bearish. Re-Resrve in farmers hands are reported at 884,069,000; year ago 1,165,000,-000. Taken in comparison with last years crop, the figures must be called bullish, but recent advance in measure, discounts them. In probability a lower market temporarily will follow the report.

Oats-Trade was decidedly broadened. More ontside interest was shown. Commission houses were good buyers of September and July. The government estimates the farm reserves at 289,988,000 bushels, which looks small compared with the figures of last year, 442,665,000. This comparatively small farm supply is particularly bullish in view of the fact that the terminal stocks have been much reduced.
